

## AIA Ohio Design Symposium Architectural Tours | Friday, Sept. 23

### Mixed-Use Track

#### Tour Stop #1: [Church + State](#)

- Mixed-use building with 158 apartments across 2 buildings.
- The two buildings are built over a shared underground parking garage and connected by a pedestrian plaza between.
- The taller of the two buildings has additional parking built above the first floor commercial spaces before transitioning to residential units above.
- The shorter of the two buildings has a rooftop lounge and deck.
- The building was built as a panelized cold-form metal framed building over a post-tensioned concrete podium.

#### Tour Stop #2: [INTRO](#)

- New mixed-use building constructed of mass-timber.
- The building features multiple commercial tenants as well as residential apartments above.
- Amenities for tenants include rooftop deck with a pool, furnished guest suites reservable for visitors, a chef's kitchen and dining area to reserve for private events, and more.

#### Lunch: [The Cleveland Clinic Samson Pavilion](#)

- A partnership between the Cleveland Clinic and Case Western Reserve University, this new facility brings medical, nursing, dental, and physician assistant students together.
- This state-of-the-future, award-winning building features architectural, curricular, and technological innovations that are destined to elevate healthcare by transforming how students learn and collaborate.
- Designed by Foster + Partners and DLR Group as AoR, with tour led by architect Richard Becksted.

#### Tour Stop #3: [The Artisan](#)

- A new 298-unit 24-story apartment tower that includes a rooftop amenity level being constructed in University Circle.
- The Artisan is part of a larger master-planned development that includes the construction of a new Cleveland Public Library branch.
